The VCIID is a dynamic, interdisciplinary research consortium at the University of Vermont that brings together faculty in Immunology and Infectious Diseases, Microbiology, and Molecular Genetics. The Center is seeking an outstanding faculty member at the Assistant, Associate or Full Professor level on the Tenure Pathway. The successful candidate will have a demonstrated ability to secure extramural funding and an established research program in host/microbe interaction at the mucosal interface, focusing on the host, the microbe or the microbiome. Specific areas of interest include mucosal immunology, microbial pathogenesis (bacterial, parasitic or viral), host innate defense and commensal and/or mutualistic interactions. Primary appointment will be in the Department of Microbiology and Molecular Genetics (MMG), where the candidate will be expected to contribute to the department’s teaching mission. The position will be supported by a competitive recruitment package from an NIH Center of Biomedical Research Excellence (COBRE) award. Extensive opportunities for collaborative research exist both within and outside the Center in cell, molecular and structural biology, and in clinical science.

Details about MMG, the Cell, Molecular and Biomedical Sciences umbrella graduate program, the University of Vermont and Burlington area may be accessed at:
http://www.uvm.edu/microbiology; http://www.uvm.edu/cmb/; http://www.uvm.edu

A curriculum vitae and two-page summary of research interests should be sent electronically (if possible) to: Search Committee Chair, c/o Debra Stern, Department of Microbiology & Molecular Genetics, University of Vermont, 95 Carrigan Drive, Stafford Hall, Burlington, Vermont 05405, e-mail address: debra.stern@uvm.edu, or apply online at: https://www.uvmjobs.com. Letters of reference will be requested if appropriate.

*The University of Vermont is an equal opportunity, affirmative action employer. Applications are encouraged from women, veterans and individuals of diverse racial, ethnic and cultural backgrounds. The University of Vermont is especially interested in candidates who can contribute to the diversity and excellence of the academic community through their research, teaching, and/or service. Applicants are requested to include in their cover letter a statement concerning how they will further this goal. The application receipt and review process will begin immediately and continue until the position is filled.*
