If eligible you will participate in a study to evaluate a vaccine developed to prevent HIV/AIDS and stimulate the body's immune system. The study will examine the safety of the vaccine and assess the immune response in those who are immunized. The vaccine does not contain HIV, and you will receive $75 per study visit for your time and travel expenses to the study location in Decatur, Georgia. This study is being conducted by Dr. Srilatha Edupuganti of the Hope Clinic of the Emory Vaccine Center, located at 603 Church Street, Decatur, GA 30030.
