Sylvia D. Ennis is a Clinical Business Manager, overseeing the business and financial aspects of the Neonatology Division of the Department of Pediatrics, Emory University School of Medicine. She has been an Emory employee for approximately 15 years. She rose to this current position due to her expertise and knowledge of academic research grant and budget management, which is a very complicated and ever changing field. Sylvia left Emory for a short period of time and worked as a grants manager in the Dean’s Office at Georgia State University. Previously, she was a financial analyst/grants manager in the Department of Medicine at Emory where she prepared grant budgets and reviewed the many incoming grant proposals for this very large department. Sylvia is very well thought of throughout Emory and we have seen a ground swell of support from the department and around campus towards Sylvia and her family as she recovers from this traumatic accident.

Sylvia is very close to her grown son Dayvon, immediate and extended family, including her precious grandson, Nasir, nephews and nieces, sister, Janet and brothers. Sylvia, as a person, is very friendly, easy going, fun loving and kind hearted, always lending a helping hand to others. She works out regularly to stay fit and has an active social life with many friends.

We look forward to the day that Sylvia returns to home to her family and to her Emory family as well.

A fund has been set up to help defray the medical costs associated with Sylvia’s recovery. If you would like to make a contribution, you may do so directly to the bank or you may provide it to Liz McCarty, Dept of Pediatrics Administrator (Emory Children’s Center, 2nd floor) for a group deposit.

Bank: Wells Fargo
Acct Name: Sylvia Ennis Recovery Fund
Acct #: 1345253403
