

# Fundamentals of HIV Prevention Counseling Training

**Nov. 3-4**  
**9:00am – 3:00pm**  
**Rollins School  
of Public Health**

The Prevention Science Core of the Center for AIDS Research (CFAR) at Emory University is offering the Fundamentals of HIV Prevention Counseling Training (FHPC).

This course is geared to individuals interested in becoming proficient in HIV counseling. There will be opportunities for those who complete the course to put their skills to work through several studies at the Rollins School of Public Health and through local community based organizations (CBOs).

The fee for this training is \$70 per person. Subsidies are available for students and CBO and CDC employees.

## ***Course Overview***

This course focuses on the six-step HIV prevention counseling protocol, conducted in both conventional and rapid testing situations.

Participants will receive training in:

- Counseling concepts and basic counseling skills
- HIV prevention counseling and how to conduct the six-step HIV prevention counseling protocol in the context of conventional and rapid testing
- Delivery of both conventional and rapid test results

A basic knowledge of HIV/AIDS/STIs and risk-reduction methods is a prerequisite for conducting and attending this course, as an "HIV/AIDS/STI 101" component is not included.
