Emory CFAR 3rd Annual Planning for Success Fellowship

We're Accepting Fellowship Applications

Are you interested in building a career as an NIH-funded HIV researcher?

Application Deadline: October 19, 2020

Would you like to learn how to write an NIH HIV-related R-level grant while drafting one for submission?
The Center for AIDS Research at Emory University (CFAR) is now accepting applications for its 3rd Annual Planning for Success (PfS) NIH R-level Grant Writing Fellowship. The Fellowship will be held online and is open to faculty from all schools affiliated with an NIH-funded CFAR. Applicants from HBCUs and HSIs are particularly encouraged to apply.

This 9-month fellowship is designed to help investigators who have not yet successfully competed for an NIH R-level grant (e.g. R01, R03, R21, R34) in HIV and are building careers in HIV-related clinical, social/behavioral, virological, or immunological research.

Key Information:
Each session will cover best practices for writing a section of an NIH proposal that aligns with the NIH Office of AIDS Research’s priorities for AIDS funding (NOT-OD-20-018). Fellows will workshop their own proposals during every PfS session, with a goal of preparing an application packet for submission to NIH or their own CFAR by the end of the fellowship.

PfS will meet online on the 2nd Tuesday of each month from 2:00 – 4:00 EST from November 10, 2020 to August 10, 2021. Fellows must commit to attending every session.

Registration: bit.ly/CFAR-PfS-Registration
• Deadline: October 19, 2020

Questions: Megan Fields (megan.fields@emory.edu)
"The application I wrote in PFS got funded!" - '19 Fellow

"This program was an incredibly valuable resource that provides expertise regarding the intimate details of NIH proposal preparation and submission." - '20 Fellow

"The presentations and program materials were very helpful in completing the application. However, the most important component was discussion of the application sections with peer junior researchers working on the same area." - '20 Fellow

"This program has substantially increased my understanding of the grant writing and submission process, and has given tangible and easily implementable ways to improve my proposal." - '20 Fellow
